EXPERIENCE

Rebecca Wong specializes in historic preservation and materials conservation and is an architectural historian in accordance with the Secretary of the Interior's Professional Qualifications Standards. Ms. Wong has performed investigations, condition assessments, repair design, and construction observation services for various facade systems, including brick masonry cavity and mass walls, as well as concrete, limestone, granite, marble, terra cotta, and wood on both contemporary and historically significant buildings and structures.

Prior to joining WJE, Ms. Wong was a project manager with the U.S. federal government, where she managed historic preservation projects at a National Historic Landmark. She is knowledgeable and experienced in the application of the Secretary of the Interior's Standards for Historic Preservation and National Park Service Technical Preservation Briefs. She communicated regularly with state historic preservation offices, the National Park Service's National Landmarks Program, and the Advisory Council on Historic Preservation.

REPRESENTATIVE PROJECTS

Historic Structures Reports

- Coquille Lighthouse - Bandon, OR: Development of historic structures report (HSR) for 1896 lighthouse to document history, condition, and treatment recommendations
- Hungry Horse and Grand Coulee Dams - MT and WA: Development of HSR for two hydroelectric dams to document condition and treatment recommendations
- Walla Walla Armory - Walla Walla, WA: Development of HSR for 1920 armory and 1938 garage to document history, condition, as-built drawings, and treatment recommendations
- Ash Grove - Vienna, VA: Development of HSR for 1790 federal-style house and brick kitchen to document history, condition, and treatment recommendations
- Fairfax Arms - Colchester, VA: Development of HSR for 1753 tavern to document history, condition, and treatment recommendations

Repair and Rehabilitation
